TURBO TORCH

The Turbo Torch range of cap sheets and underlays has been specifically developed to provide the perfect combination of long term performance, ideal handling characteristics and rapid torch-on installation.

The unique Turbo-Flow polymer modified bitumen coating melts faster with less gas/heat required, rapidly achieving optimum bond strength, and then cools quickly to reduce foot marking and slumping. Turbo Torch membranes are polyester based, with the specifically blended Turbo-Flow SBS polymer modified bitumen coating, ensuring high tensile strength, excellent low temperature flexibility and guaranteed long-term performance.

- High performance/rapid installation
- Unique Turbo-Flow SBS modified bitumen coating
- 'Quick Torch' rapid dispersal backing film
- Less heat (gas) required for installation
- Reduced installation time (up to 30% faster)
- Ideal for detail work – slate surfacing matches pour and roll cap sheets
- Use with glass fibre based Universal Torch Underlay
