

STORMFORCE

ROOFING & MAINTENANCE LTD

Flag-Soprema

Flag-Soprema offers a comprehensive range of TPO and PVC single ply membranes for wide-ranging applications. Our 40year plus track record in the roofing, civil engineering and hydraulic sectors has given us the experience and product development expertise to secure a market-leading position.

In addition our Copper Art® and Silver Art® systems have the aesthetic quality of traditional metal roofing at a fraction of the cost.

Each membrane is designed to meet the requirements of particular applications as noted below.

Applications

Flagon TPO and PVC membranes have long life expectancy and are suitable for:

- Ballasted roofs - both with and without pedestrian access
- Roof gardens
- Mechanically fixed systems
- Fully adhered systems
- Exposed vertical surfaces
- Complex detailing
